

# A2LA Environmental Testing

## Laboratory Accreditation Program

### A2LA offers...

- accreditation to the 2009 and/or 2016 TNI standard
- accreditation to the 2014 TNI Field Sampling and Measurement Organization (FSMO) standard
- accreditation to the DoD/DOE Quality Systems Manual Version 5.3
- joint A2LA and state assessment options for the following:
  - California Environmental Laboratory Accreditation Program
  - Florida Department of Health
  - Georgia Environmental Protection Division (EPD)
  - Kansas Department of Health
  - Kentucky Underground Storage Tank Program
  - Louisiana Department of Quality
  - Minnesota Department of Health
  - New Mexico Environment Department
  - Oregon Department of Health
  - Texas Department of Health
  - Wyoming Storage Tank Remediation Program
- state only assessments for the following:
  - California Environmental Laboratory Accreditation Program
  - Florida Department of Health
  - Louisiana Department of Quality
  - Minnesota Department of Health
  - New Mexico Environment Department

The A2LA Environmental Testing Accreditation Program serves a wide range of users and includes a number of location - and agency - specific subprograms. A2LA is also a TNI approved non-governmental accreditation body.

For more information about A2LA's accreditation services, including information about services specific to environmental laboratories, contact us at [www.A2LA.org/form/contact-us](http://www.A2LA.org/form/contact-us).
