

Trust your preserving to QEC.

Complete.
Compliant.
Ready to use.

QEC can Custom-Preserve any of our containers with the preservative or combination of preservatives that your job requires. QEC Custom-Preserved™ containers arrive complete, compliant, and ready to use.

Complete: Cleaned to your specified preparation level, fully assembled with closures and liners/septa, plus any required labels and seals.

Compliant: Precise measurement and application of preservatives for the parameter and method you require. OSHA HCS 2012 and DOT compliant product & outside package labels with accompanying safety data sheets.

Ready-to-Use: Custom-Preserved™ containers are ready to receive your sample with no further work on your part. Saves time and helps you get samples to the lab promptly.

For more information about worry-free Custom-Preserved™ containers that will protect your sample integrity, contact your QEC representative or our **customer service team**.

Protecting your sample integrity™... Every container... Every time.
