

Florida Society of Environmental Analysts  
Fredrick C. Bothe Scholarship for Environmental Studies

The Florida Society of Environmental Analysts (FSEA) is accepting applications for the Fredrick C. Bothe Scholarship for Environmental Studies. This scholarship is intended for undergraduate or graduate students majoring in environmental science, biology, microbiology, chemistry, physics or marine science that plan to enter a career in the environmental field.

One of FSEA's goals is to take a leadership role in the promotion of environmental programs and mentoring. The Fredrick C. Bothe Scholarship for Environmental Studies was founded to help achieve this goal. The scholarship is named for one of the past Presidents of FSEA. Fred Bothe was a great man who believed in the mission of the Society and was a supporter of our student mentor program. We have expanded our mentor program to include this scholarship in his honor.

The recipient(s) will receive a \$2,000 academic scholarship provided by the Fredrick C. Bothe scholarship fund. The recipient(s) will be invited to attend our Fall Conference in Daytona Beach in October and will be recognized during the conference. The conference registration, travel expenses, hotel accommodations and meals will be covered by FSEA. The winning essay(s) will be posted on our website at [www.fsea.net](http://www.fsea.net)

**Application Receipt Deadline:** September 10, 2022 at 11:59pm  
**E-mail all required information to:** [secretary@fsea.net](mailto:secretary@fsea.net) before the deadline.
